3. Laila Khan Furniturewalla's 'UNTAMED HEART'

Laila Khan Furniturewalla returns to the art world with her deeply personal solo exhibition, 'UNTAMED HEART', after an 18-year hiatus. The exhibition will be held at Gallery Art & Soul from April 16 to 22, 2025.

The collection marks a significant emotional and artistic return for Laila, reconnecting her with her creative roots and honouring her parents, Sundri and Feroz Khan, whose influence is embedded in her work. Laila's pieces blend ancient materials like sand, gold leaf, copper, and pigment in abstract forms, exploring themes of identity, gender, and spirituality.

Laila describes the exhibition as a culmination of her artistic journey. "I am exhibiting my solo body of work after 18 years. The works are highly personal and emotive where I am showcasing works that embody my search for the mystical and divine without boundaries & definition," she shares.
